

P-EBT PROCESSING ISSUE

Due to a data processing issue, some new and existing P-EBT households did not receive the summer benefit issued on August 25. We have escalated this issue with our state vendor to expedite the release of benefits. For some households, this will require that a new P-EBT card be issued to the address provided by the eligible student's school district.

Households can expect to receive a P-EBT card mailed to the address provided by their child's school no later than September 30, 2022. Eligible households that have not received benefits by this date should contact the P-EBT Call Center at 1-866-513-1414.
