Religious Exemption /Vaccinations and Immunizations

I do not wish to have my child _____ vaccinated or immunized because such conflicts with my sincere, religious beliefs.

Parent's/Guardian's signature

Date

Please note:

Per the Massachusetts Department of Public Health, exclusion of students during disease outbreaks may occur when one or more cases of disease are present in a school. All susceptibles, including those with medical or religious exemptions, are subject to exclusion as described in the Reportable Diseases and Isolation and Quarantine Requirements (105CMR 300.000).

The reporting and control of diseases identified as posing a risk to the public health is prescribed by State regulation and law. The Isolation and Quarantine Requirements establish isolation and quarantine requirements for cases of certain diseases and their contacts in certain high risk situations, including the school setting. Common childhood vaccine-preventable diseases identified that may occur in schools and require exclusion requirements include: Measles, Mumps, Rubella, Pertussis (whooping cough) and Varicella (chicken pox).
