Administrative Regulation

Code: 3310AR

STUDENT FUNDRAISING

I. PURPOSE

The purpose of this administrative regulation is to provide a philosophical framework regarding student fundraising in the Spearfish Public Schools. In addition, the administrative regulation outlines protocol that must be followed in order to have fundraising initiatives approved prior to implementation. Finally, the administrative regulation enumerates procedures that must be followed regarding carrying out student fundraising events.

II. GENERAL STATEMENT OF POLICY

District administration recognizes a desire and a need for fundraising to support district programs or student activities beyond the funding provided by the school district. The district administration also recognizes a need for some constraint to prevent fundraising activities from becoming too numerous and overly demanding on employees, students, and the general public. School fundraisers are approved fundraisers conducted by students, staff, or parent groups. These fundraisers fall under the provisions of Section III.

III. STUDENT FUNDRAISING

- A. All student fundraising must be approved in advance by the appropriate administrator and superintendent. The purpose of each fundraiser must be identified and approved in advance. A form shall be available in each district building for this approval.
- B. Per the USDA Nutrition Guidelines, fundraisers that involve the sale of food items cannot be held in the food service area during the meal service.
- C. The normal budget process will provide the primary funding needed by the district. However, fundraising can be used to cover short-term single cost items or activities. Funds shall be raised for a specific purpose and may only be expended for necessary student expenses associated with the specific purpose for which the money was raised.
- D. Individual student participation is optional. Students shall not be pressured to sell products or solicit funds and will not be required to meet a sales quota to participate in an activity or field trip. Staff shall not use their positions of influence to pressure students to participate nor shall students who do not participate in any way be penalized.
- E. Whenever possible, local businesses will be given opportunities to provide fundraising services or products.
- F. The school district expects all students who participate in approved fundraising activities to represent the school, the student organization, and the community in a responsible manner. All rules pertaining to student conduct and discipline extend to student fundraising activities.
- G. Door-to-door sales are discouraged, but if approved, students may be allowed to sell according to the following guidelines:
 - 1. K-8: Allowed only if parent or guardian is with student
 - 2. 9-12: Allowed only if two or more students work together
- H. The school district will provide alternative ways for people to donate money to schools without purchasing fundraiser products (see #2 on fundraising approval form).
