540-965-1420**

Are you concerned about your child's development? Does your child move, speak or act differently than other children the same age? The purpose of the screening is to identify children who may have a developmental delay and may benefit from services including classroom intervention, speech or motor therapy.

Areas screened:

Motor Skills
Communication Skills
Problem Solving Skills
Personal/Social skills

Birth - 2 years – By appointment for screening
