

K12 Alerts Automated Notification System

Parents, please complete this form so that we are able to contact you quickly in an emergency using our mass notification system. This form is in each child's packet because a separate form **MUST** be completed for EACH of your enrolled children. Please do not put more than one child on this form because they are filed by grade level. Don't worry; if you have multiple children, you won't get multiple messages; the system takes that into account and only sends one message to each number or email.

Student last name, first name
